## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-5 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance:

The closest prior art of record do not teach or suggest the transparent conductive-layered structure as set forth by Applicant. The inclusion of the curing temperature range is a process limitation, which provides a patentable distinction between the present invention and the prior art as the prior art heats the coating at a higher temperature to burn off the residual organic components. The present invention is cured at a lower temperature in order to leave residual organic components, long chain alkyl groups containing 7-30 carbon atoms, in the final coating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gwendolyn Blackwell whose telephone number is (571) 272-1533. The examiner can normally be reached on Monday - Thursday; 6:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jennifer McNeil can be reached on (571) 272-1540. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
